

CORONAVIRUS

A NEW GLOBAL PLAGUE

And The Need To Be

INOCULATED BY JESUS

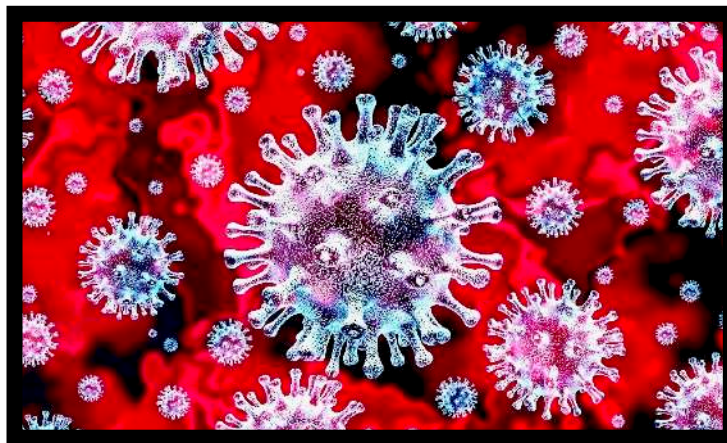

A FAITH MESSAGE BY LEN LINDSTROM

Mass hysteria — global pandemonium — hyper anxiety and “*men’s hearts failing them for fear*” — all coupled with an increasingly World-Wide Lockdown — and all due to the latest “**KILLER BUG**” to surface — a freshly developed little microorganism known as the coronavirus which has been renamed “**COVID-19**” — and as this newly discovered virus has rapidly spread around the world and the death toll exponentially continues to rise day after day, the fear level continues to escalate that a long awaited devastating global pandemic has finally broken out upon the earth.

As I write this little article we are still under three months into this latest deadly plague but the impact has already changed the daily lives of virtually every aspect of society — and the entire world is going increasingly crazy with fear over the possibility that this virus could be the big “*multi-million killer pandemic*” the (WHO) World Health Organization and the (CDC) Centre for Disease Control have long been waiting and preparing for — and yet despite all the scientific and biblical warnings and all the “*signs of the times*” — almost no one including most Sunday-go-to-meeting Christians seemed to be prepared for such rapid spread nor the degree of mass hysteria that is already raging around the world — and while some are still saying the

danger will pass quickly, many noted epidemiologists along with a lot of fear mongers and those attempting to capitalize on the situation are stating the worst is yet to come!

So what should be the response of true “*Jesus Believers*” to this latest pandemic — shall we join the modern day group of “**Chicken Littles**” and run around frantically screaming, “*The sky is falling — the killer bugs are gonna get us all*” — or should we be rising up as true Blood Bought, Born Again, Holy Ghost Believers who have the opportunity to fearlessly declare in the face of this latest onslaught of killer bugs that our God is

bigger than any virus, sickness or disease — and that we will not give in to the “*spirit of fear*” nor will we act like a bunch of scared little rabbits with tails tucked between their legs as we scurry off to our little lairs stocked high to the ceiling with enough toilet paper to last 30 years! That’s a lot of wiping no matter how many squares you use — and this is not a situation where the person who has the most “**Butt-Coin**” wins the war!

No my friends — listen to this wonderful scripture: “**For God has not given us a SPIRIT of FEAR but of Power and of Love and of a Sound Mind!**” 2 Timothy 1:7

After all, God is either God and His Word is true and He is able to protect His children even in the time of plagues — just as surely as He did for those **“under the blood”** in the Land of Goshen — or we may as well join the ranks of unbelieving masses who foolishly think we originated by crawling out of some primordial slime pit eons ago — but the fact remains — God is real, He is our Creator and He is our Saviour and we are His children — and miracles of healing, protection and provision still happen today because of the unfailing love of God and the inherent power in His Promises!

God’s Word is literally filled with divine power — promises that He Himself *“watches over to perform”* — and one of the greatest passages of scripture for divine protection in all of the Bible — a scripture that not only ensures the believer’s personal safety but by faith extends to their entire families — written specifically for anyone who determines to **“dwell in the secret place of the Most High and abide under the shadow of the Almighty”** — gives every true believer the right to boldly declare with just as much confidence and assurance as David did — **“I will say of the Lord, ‘He is my Refuge and my Fortress; My God, in Him I will trust.’”** Psalm 91:1-2

And no matter what we may see or hear especially through the brainwashing mechanism of mainstream media that primarily thrives and survives on *“Bad News”* and worst-case-scenario biased reporting, we can still declare the Good News — **“A thousand may fall at your (my) side, And ten thousand at your (my) right hand; But it shall not come near you (me).”**

Those Holy Ghost inspired words are followed by this cherished promise of our Loving Heavenly Father, **“NO EVIL shall befall you, NOR shall ANY PLAGUE come near your dwelling”** Psalm 91:10

We could probably find a thousand more such precious promises of divine protection in the Word of God but the primary kicker to this entire equation of fear versus faith lies in the clear biblical fact so emphatically declared by the apostle John — **“GREATER is HE who is in you than he who is in the world”** 1 John 4:4.

This fear destroying scripture simply means the omnipotent Spirit of the Living God who dwells inside each and every true born again believer is far greater, bigger and more powerful than any problem, sickness, bug or virus that could ever be thrown at us — be that afflicting force the product of natural biological process and animal-to-human transmission or spawned in the very pits of hell — which I believe it was — and quite

possibly with the help of devious agenda-driven men!

But regardless the source of its origin, in light of such marvellous promises and spiritual realities — do we really think this new plague caught God by surprise and now He’s sitting in heaven wringing His hands saying, Oh my — I didn’t see that one coming — a new virus — oh me, oh my, what shall I do now — my poor helpless little sheep are down there and the devil is filling them with fear — hardly my friend — **God is far far bigger than any invasion of demons, bugs or viruses** and nothing catches the Almighty by surprise!

After all — we are His Children — sons and daughters of the Most High God — in-dwelt by the Living Christ Himself — born of His Spirit — washed in His Blood — engrafted with His Word — clad in His Armour — filled with the mighty power of the HOLY GHOST — seated in Heavenly Places with Him — far above all principalities and power and might and dominion — and may I add, **far above all filthy disease causing bugs and viruses** — and we have already overcome this world system in His Mighty Name exactly as the Word of God declares — for **“we are more than conquerors through Him who loved us”** and there is **NOTHING** that **“...shall be able to separate us from the love of God which is in Christ Jesus our Lord.”** Romans 8:37-39

So let us leave the fearful **“Chicken Little Syndrome”** to those who know not our God and sadly even to the many unbelieving churchgoers who despite spending an hour or more in their pretty padded pews on most Sunday mornings have never yet truly come to the saving knowledge of who God is in them or who they are in Christ or to personally trust the Living Lord and the inherent power of His infallible Word.

But rather, let you and I — **the true “CHURCH”** — the *“Ecclesia”* — the true Body of believers — God’s Holy Remnant who have not bowed their knee to Baal nor to this world’s Beast System — be about the Master’s Business even during such times of plague and potentially rampant disease!

WAR ON KILLER BUGS

Now that we have a brief introduction to this latest pandemic and have established the biblical fact that true believers need not be overcome by the spirit of fear — let us give a very succinct but direly needed comparison between this latest global paranoia and a

few of the major plagues of the past.

It was shortly after the big **“SARS”** scare in 2003 — yet another of many of the recent respiratory influenza (Flu-like) strains of the 21st Century which temporarily threw much of the world into fear mode but ultimately proved to be little more than what many deemed a *“Trial Run”* or *“Dress Rehearsal”* for the coming *“Big One”* — that I launched into a serious study about germs, especially in regards to certain deadly pathogens categorized as the most lethal viruses, bacteria and protozoa — which have indisputably been the **biggest killers of mankind throughout all of history.**

Thus it was at that time in 2003 that I started writing a book entitled **“WAR ON KILLER BUGS”** — just one of numerous books I am working on which like several others got temporarily set aside but now needs to be quickly completed as this topic is so relevant and important to the days we are currently in.

That writing rapidly became an intriguing manuscript about 200 pages in length which included a succinct history of basically all major pathogen-caused diseases as well as the major **PLAGUES OF THE PAST** — and I believe God inspired that lengthy study to provide me with at least an inquisitive layman's comprehension of the physiology of the human body and how our natural God-designed immune systems work to ward off sickness and disease — and most importantly, to give His believers the scriptural background and understanding of how germs attack the body and the spiritual weaponry to not only resist but also to overcome these rotten killer bugs!

As such, when we transpose these same *“bug warfare principles”* into the spirit realm, we must never forget that the devil came to *“steal, kill and destroy”* — nor the fact that one of his many names is **“Beelzebub”** which means the *“Lord of the Flies”* and indicates his kingdom basically rules the dunghill.

Some kingdom — nothing more than a crap pile and a bunch of bugs, flies, gnats, cockroaches and mosquitos — I've always got a good laugh when I preached that point — but it's not quite so funny when we realize his dirty little minions also consist of all disease causing germs, viruses and bacteria which were never created by God to cause sickness or disease — for as the Word of God repeatedly states

during creation, *“it was all good”* — and there were no sickness or disease causing viruses or germs to be found in the Garden of Eden — but somewhere along the line these originally harmless bugs have become mutated and deformed through the effects of the curse and have been used ever since by our arch spiritual foe to claim the lives of far more people than all the world's wars, accidents and tragedies combined!

A BRIEF HISTORY OF THE WORLD'S WORST PLAGUES

So let's do a thumbnail sketch of a few of the most well known plagues in recorded history — before we compare the scope and magnitude of these historic plagues to this current viral infection.

When one thinks of plagues the first that usually comes to mind is the **BUBONIC** or **BLACK PLAGUE** — also less commonly referred to as the **Pestilence** — which has actually been around for thousands of years with its first medically recorded cases erupting in China in 224 AD and the plague has repeatedly resurfaced throughout the ages ever since.

But by far the most deadly instance of this horrific Black Plague to ever take place was when it swept with devastating force through Europe in 1346-1354 during which seven or eight short years of pestilence, the **Black Plague wiped out anywhere between 30-60 percent of the**

entire population of Europe — claiming anywhere between **60-200 million lives** in Europe and Asia at the time.

The Black Plague originally travelled from Asia to Europe overland as it was carried along by traders via the Silk Road and later during the mid-14th Century primarily by Italian merchant ships loaded with hitchhikers of rats and fleas which acted as hosts to the deadly disease.

As a result, many major cities in Europe, once they became infected, saw their entire populations chopped down to less than half or even one-third of their former inhabitants as the pitiful victims almost all died within 5-8 days from time of infection — suffering with intensive internal bleeding which usually resulted in huge bulbous growths (*buboes*) that rapidly appeared in their necks, groins or underarms — and big black patches on their bodies generally accompanied by blackened fingers and nails as well as open bleeding wounds.

"*Yersinia Pestis*" is the name ascribed to the deadly bacterium which today's scientists have unanimously determined to be the bacteria that caused the Black Plague which continued to resurface for the next several centuries with fresh outbreaks and devastating impact — with the last major outbreak having taken place primarily in the regions around South Africa during the early part of the 20th Century and is even said to have temporarily resurfaced in Madagascar in 2013.

These filthy little microorganisms that caused the Black Plague are still to this day being studied and experimented with in the **world's top Level-4 BLS (Bio-Safety) Laboratories** in numerous countries which specialized labs deal and tinker exclusively with the world's deadliest and most easily transmitted pathogens — including everything from hemorrhagic fevers and Ebola to the Black Plague as well all the latest strains of influenza viruses including SARS, MERS and H1N1 all of which are not surprisingly various strains of the coronavirus!

And something I have yet to hear in mainstream media but which is an undeniable fact — even China was finally cleared by the WHO to recently open that country's first ever Level-4 laboratory for working on these deadly pathogens which lab is located — you guessed it — **in Wuhan China** — which just happened to be the epicentre of this latest coronavirus right where it initially broke out. Purely coincidental — perhaps!

Regardless, when one thinks of the Black Plague and realizes that even six to seven centuries ago infectious disease was used as a means of mass destruction to accomplish dastardly agendas and conquests — as seen in historical Latin records of that era which state that in 1348 the Mongol army hurled plague-infected cadavers by catapult into the besieged Italian trading port city of Kaffa on the Crimea — thereby transmitting the extremely contagious and deadly disease to the walled city's inhabitants after which multitudes died and the fleeing survivors who didn't perish in the siege spread the plague from Kaffa throughout the Mediterranean Basin — which makes this event the first known instance of "**Biological Warfare**" — which is still a very formidable threat to our present day world.

One can only imagine the potential nightmare that could be unleashed if those with demonic agendas irrespective of country or conscience determined to implement such devilish means as germ warfare today!

But there was yet another tragedy of the Bubonic Plague that needs to be mentioned which is the fact that during this time of Great Pestilence in the 14th Century the **religious institutions of the day were completely powerless against the PLAGUE** and the church got a black eye right along with the rest of the populace as their ritual prayers, Hail Mary's and self-inflicted flagellations as a sincere but futile means of penance failed to prevent the onslaught of sickness and death and many of the leading clergy died right alongside their misguided parishioners.

The result was that **faith in religion plunged to an all time low** — just as it quite possibly could today for those who trust more in Brownie Point Do-It-Yourself

religions, rituals and ceremonial rites as a means of self justification than they trust in the reality, presence, grace and power of the Living Christ alone!

Lord, help the Church of today to not make that same mistake but rather to shake off its slumber and awake to the reality of the unmerited mercy and grace of the Living Christ — and make us — each and every one — a flaming witness of your saving keeping healing power!

THE SPANISH FLU OF 1918

The next major plague that may come to mind — which is even more relevant to our present 2020 global fiasco — is the **SPANISH FLU** — dubbed in France as "**La Grippe**" — and was one of the most horrific pathogenic killers in modern history — perhaps taking more people to their graves in a single year than the entire number of people who died in both the First and Second World Wars combined as it resulted in a devastating death toll of anywhere between 50 to 100 million in a single year which is one of the highest numbers of deaths due to pathogens in a single year in all of modern history including most of the years during which the Black Plague ravaged Europe — and it was caused by none other than just a simple **little Flu Bug**!

The Great War (WW1) that started in 1914 and claimed between 8-10 million lives was just wrapping up when another global war broke out — this one against killer bugs that would rapidly claim between six to ten times as many lives in less than a quarter of the time.

Soldiers in the trenches of France in the spring of 1918

came down with the usual symptoms of influenza such as headaches, fever, sore throats and general malaise from which only a few initially died — but by summer the symptoms striking the soldiers became much worse as one out of every five who got infected developed pneumonia or blood poisoning while others developed a strange condition called “*heliotrope cyanosis*” that literally turned them blue in colour as their lungs and internal organs were ravaged and many of the victims began to bleed profusely from their noses, ears and mouths and within a few days almost all of them died.

The new killer, referred to by some as the “**BLUE PLAGUE**” was underway — the bugs were on the march — and they knew no borders nor did they show favouritism to either side of the war as they struck down over 70,000 American troops on the Western Front of which over one third quickly died — by the end of summer they reached Germany where another 450,000 died — and within the first few months of outbreak they hit England where another 228,000 British died — then they jumped to India where more than 16 million died — and numerous other countries which were just as rapidly devastated as in one single year the pandemic of 1918-1919 infected over 500 million people which equated to one third of the entire world population of the time and resulted in a staggering death toll of an estimated 50 or 60 million while numerous other reports state **100 million** — with at least 675,000 deaths occurring in the United States alone — plus over 55,000 in Canada — and that was before the advent of modern day mass international civilian aviation where bugs can hitchhike from source to almost anywhere in the world in a mere 12-16 hours — and it was **just a little Flu Bug!**

The dirty little culprit behind all the devastation was one of the first strains of influenza that would later become known as an H1N1 virus — sound familiar — a strain that through time would spawn further outbreaks known as Avian or Bird Flu as the viruses crossed over from fowl to human — and then Swine Flu which viruses crossed over from pigs — but these infective agents are all similar or related viruses and no matter how they are categorized in modern day reporting they have caused massive devastation, death and destruction across the world — as well as wide spread pandemonium, fear and quite often huge global economic fallout much the same as the coronavirus even in its early stages is doing today!

And much the same as today’s latest pandemic — there was **no medicine** to combat the Spanish Flu,

no natural cure for the disease and **no vaccine** — so the only thing the medical profession could do to slow down the spread or flatten the curve of infection was to implement as best as possible what some medical professionals today deem the archaic processes of isolation, quarantine and face masks — coupled with what has become known as “**social distancing**” — to curtail physical contact and the easy spread of the virus through sneezing and coughing — as well as good old fashioned fresh air and sunshine which are always beneficial.

Hence, in light of 1918’s tragic bout with this killer flu bug it becomes a little more understandable why there has been such a wild run on toilet paper as some reports state it was the Chinese who set the

precedence for the latest TP hoarding phenomena in order to use tissue to make home-grown makeshift facial masks when regular limited supplies ran out — perhaps the precursor to the “**Great Canadian Toilet Paper Shortage of 2020**” — and the WHO and other international and political bodies are now employing the same attempted tactical procedures which were used over 100 years ago during the Spanish Flu to try to stem the tide and flatten the curve of increased infections and the rapidly escalating death toll.

SMALL POX, TUBERCULOSIS, AIDS & MORE BUG INDUCED DISEASES

Neither time nor space in this little article permits the inclusion of the history and devastation caused by a myriad of other bug-induced viral calamities that have repeatedly struck this world — but there are a few that should at least be quickly touched on just to remind us that this temporal world we call home for now has been repeatedly ravaged with crisis after crisis and disease after disease — all caused by these invisible marauders of health known as viruses, bacteria and protozoa.

One need only think of **SMALL POX** which is yet another deadly pathogen that plagued the nations for thousands of years even long before the coming of Christ — and this extremely wicked disease caused by the “*variola virus*” has indisputably been one of the single biggest killers of humanity down through the ages — as at the end of the 18th Century alone it was claiming almost 100 million lives per year including the death of five kings — and the lethal virus continued its march of death well into the 20th Century with a fatality count that has been estimated at a staggering **300 to 500 million people in the 20th century alone.**

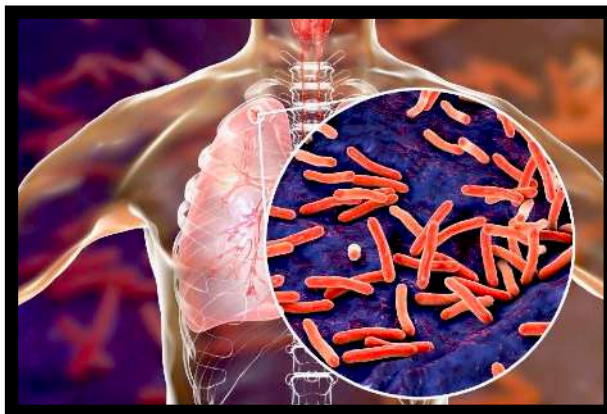

As late as 1967, there were still an estimated 10 to 15 million new cases of Small Pox per annum, resulting in **two million deaths per year**, millions more who were left pock-marked and disfigured as well as another 100,000 who were left blind each and every year from this horrific killer disease — until it was virtually eradicated by an extensive worldwide vaccination program in 1972 — at a time when vaccines could still be trusted — with only two top level laboratories that still officially hold small quantities of the virus supposedly for study and research — one in the USA and one in Russia.

TUBERCULOSIS is another of these oft-forgotten but highly contagious diseases which some may be shocked to learn has aggressively vied for the right to be termed the number one killer disease in the world — and like the common flu is caused by an easy-to-inhale bacteria that primarily attacks the lungs and respiratory system — much the same as influenza viruses do — and throughout the ages has devastated the lives of multiplied tens of millions.

Once known as “*consumption*” due to the way it gradually caused the body to waste away — it was termed the “**WHITE PLAGUE**” in the 18th Century due to the extreme anemic pallor of those affected — and later in the 19th Century was still responsible for one out of every 9 lives lost in Europe — and to this day still infects nearly 2 billion people worldwide with around 10.5 million new cases each year and is still estimated to result in approximately 1.5 million TB deaths every year — primarily in the regions of Southeast Asia, India, Africa and the western Pacific — but like many things here in the developed West is now basically relegated to the category of “*out of sight so out of mind.*”

The decline in this killer disease in the western world primarily began with the advent of the “*sanitarium cure*” in the latter part of the 19th Century which prescribed continuous fresh air and good nutrition and served to help many TB patients recover followed by the discovery and use of certain antibiotics many of which the bacterium later developed resistance to — but TB remains a major health problem around the world still to this day.

A few more highly infectious killer diseases that have plagued the world include **TYPHOID FEVER** caused by another type of bacteria which has taken untold millions of lives and still accounts for an estimated 21 million cases per annum and still to this day results in anywhere from **200,000 to 600,000 deaths worldwide each and every year**.

And let's not forget **CHOLERA** which much like typhoid is caused by yet another potentially deadly bacteria — this one primarily transferred through food and water that has been contaminated with “*infected human fecal material*” — and has throughout history claimed the lives of more than **30 million people** — which epidemics have repeatedly surged during highly unhygienic or unsanitary conditions resulting in roughly 1.5 to 4 million cases per year along with about 120,000 deaths on average worldwide — a stark reminder of how important a role just a little personal hygiene can play in staying free of these killer bugs.

And then there is **MALARIA**, a mosquito-borne disease caused by neither viruses nor bacterium but rather “*protozoan parasites*” and is carried and transmitted by infected mosquitoes which some epidemiologists claim may have killed half of all the people who ever lived — a truly exaggerated claim — but there is no doubt malaria has taken billions of lives over the ages and even today there are still up to half a billion cases of malaria every year and approximately **2 million malarial deaths each year** — so regardless of the exact numbers, old Beelzebub seems to have had a heyday with his unseen microscopic agents of disease and death — which invisible parasitic mercenaries appear to be once again on the march of destruction with this new coronavirus!

And we should not forget about **HIV and AIDS** — the recently found modern day plague that suddenly burst onto the world stage in the mid-1970's originally called “*Slims's Disease*” before it became known as HIV which progresses into full-blown **AIDS — Acquired Immune Deficiency Syndrome** — which killer virus initially exploded amongst the homosexual community in the mid-1970's and for years dominated World Health news reports but is hardly ever heard about anymore even though according to the WHO's own recent reports has since **taken over 36 million lives** and there are currently over 38 million people living with AIDS today who are being somewhat sustained through treatment — but there are still almost 2 million new cases per year and about **1 million deaths annually** so AIDS is still a very major pandemic throughout the world particularly in sub-Saharan Africa where about 2/3 of all cases are — but we seldom hear anything more about it as it appears to be no longer newsworthy.

Anyone with an inquisitive mind must sometimes wonder why we always seem to be in need of another major health emergency to create fear and raise massive amounts of fresh capital much the same as governments around the world seem to have a perpetual need for new wars and conflicts to keep bolstering or at least reviving their economy.

A relatively new killer on the world stage called **EBOLA** may have temporarily met that requirement when this vicious disease suddenly erupted in 2004 in what was one of the last major outbreaks that had the WHO and CDC running wild as they anticipated the disease could rapidly go global — which filthy virus had spread from a secluded pocket along the border of Liberia and Guinea in West Africa — perhaps mutated and transferred over to humans through the practice of **eating infected bats and chimpanzees** — much the same as the origin of the coronavirus has been suggested through the Chinese practice of eating almost any and every disgusting type of animal from bats and rats to snakes and lizards as well as cats and dogs purchased from deplorable and literally filth-ridden open meat markets as seen in Wuhan and many other places.

Ebola is one of several horrific Hemorrhagic Fever diseases caused by a rare but deadly virus which along with such other common symptoms as fever, aches and diarrhea rapidly devastates the human immune system, attacks blood clotting cells and generally leads to severe and uncontrollable bleeding which proves to be fatal for about 45-50% of those who contact the disease and drives the fatality rate extremely high — but fortunately the 2004 outbreak was fairly quickly stemmed with only 28,616 cases of Ebola virus diagnosed and a substantially lower fatality number of **11,310 deaths** reported in Guinea, Liberia, and Sierra Leone — the main affected regions in West Africa — plus a few more cases in other countries.

I was **in Liberia at the time the outbreak** started which rapidly became the epicentre of the disease and ultimately recorded the highest death toll — and I stayed for the next seven months of the Ebola crisis during which time I witnessed firsthand a lot of the fear, suffering and death it caused including tremendous economic hardship as virtually every international investment company fled the nation which brought the already struggling third-world economy of Liberia to a grinding standstill — which coupled with its ingrained rampant governmental corruption it has yet to recover from — but fortunately it was determined that although extremely contagious in very close contact the **Ebola disease was not airborne such as influenza bugs** and other killer viruses are — nor was it anywhere near as easily transferrable as this new coronavirus appears to be if one used common sense and good hygiene.

THE COMMON FLU & INFLUENZA VIRUSES

Now let's start bringing this little section that covers just a few snippets of the world's most infectious killer diseases to a close with a brief look at influenza — also known as the **COMMON FLU** — and the death toll it has extracted during pandemics as well as the large number of fatalities it causes year after year which has become almost universally **accepted as the normal result of flu seasons**.

Of course, as already seen, the worst ever recorded flu pandemic was the 1918 explosion which took upwards of 50-100 million lives — but that was not the only flu pandemic to take place in the 20th Century.

During the flu pandemic of **1957-1958** a new “Influenza A” virus categorized as H2N2 emerged in East Asia which triggered a pandemic of “**ASIAN FLU**” that originated from an Avian virus with slight genetic mutation and was first reported in February 1957 in Singapore, then Hong Kong and by summer a couple months later took hold

in the coastal cities of the United States — and the estimated number of deaths on the low end was about 1.1 million worldwide with 116,000 deaths occurring in the United States alone — but the WHO website states the **death toll from the Asian Flu was actually anywhere between one to four million worldwide**.

And then there was the flu pandemic of **1968-1969** which was another fresh global outbreak of influenza that originated in China in July 1968 and lasted through most of 1969 — and this outbreak which happened to be yet another somewhat mutated strain of Asian or Bird Flu was referred to as H3N2 that exploded in Hong Kong where it affected over half a million of the city's residents or about 15% of the population which is the reason it is commonly referred to as the **HONG KONG FLU** — which constituted the **third major influenza pandemic of the 20th century**. According to the CDC the Hong Kong Flu had a very low case-fatality-ratio of only one half percent (0.5%) of those infected but it still took the lives of more than another one million people around the world — which again some WHO websites state anywhere between **one to four million died** from the flu that year as well.

Nevertheless, most people today do not consider influenza or the **Common Flu** a very serious illness – and yet, according to reports on most WHO and CDC sites these dirty little viruses **kill anywhere from 290,000 to 650 000 people each and every year!**

As such, this brief account of just a few of the myriads of infectious diseases which have devastated the world is more than enough to show that easily transmitted diseases and many types of killer bugs have been around for many many centuries and even millennia and they have repeatedly decimated entire populations and taken multiplied hundreds upon hundreds of millions of lives to their graves – so unless one is truly protected and inoculated by the Living God these killer bugs are nothing to play with!

TRUE CORONAVIRUS FATALITY RATES BASED ON NUMBERS POSTED TO DATE

Now to the supposed pandemic at hand – and one of the really big questions – what is the true fatality rate of this latest killer disease!

Even though the Common Flu takes between 290-650 thousand lives per year it is said to generally have an extremely **low mortality rate of only about 0.1%** or to make it more explicit, one out of every thousand who become infected die of the flu and related or subsequent pneumonia – so how does this new coronavirus compare.

COVID-19 is still being reported in many places as having a fatality rate of only about 1 or 2 percent – which means one or two out of every hundred infected perish – but in reality if we crunch the numbers it is far far greater – which makes me question what some news reporters are talking about – and leaves little wonder why they so often cannot even get the news or weather right – as some of them apparently cannot even do **simple Grade Three Math**.

To illustrate – and due to my personal penchant for research and a bit of pragmatic number crunching coupled with my growing distrust of mainstream media reports – for almost the last month and a half I have been **doing my own daily tracking of the posted numbers** of total infections, total recovered and total deaths from COVID-19 which are reported cumulatively at midnight GMT time from around the world.

Remember that as of **January 21 2020** they were reporting about **300 patients and a handful of deaths** in China. By February 16 there were over 70,000 cases

and 1,770 confirmed deaths around the world – and only two and a half weeks later by March 7th there were 105,965 cases and 3,569 deaths which meant cases had grown by 50% and fatalities had more than doubled – four days later on March 11 the WHO declared it a pandemic – and by March 27th, just over two weeks later the tally had jumped to **785,807 cases and 37,820 deaths** – and the pandemic was still less than two and a half months into the making – which clearly indicates this could be a much deadlier bug than many may have originally thought – or in the words of some more skeptical of the potential evils of fallen human nature – they finally built a more effective bug!

So now let's look at **the real numbers** based exclusively upon day after day tallies being posted of total confirmed cases, number of people who recovered and number said to have died from this virus.

Now this is where the numbers become far more grave as the true death ratio should never be determined by dividing the total number of deaths by the total number of cases as the rapidly escalating case numbers include all those recently infected for whom outcomes will not be known for days or weeks – so the **true fatality ratio can only be determined by the number of "Closed Cases"** – as they are every year – or more explicitly the cumulative number of both those who have recovered and those who have perished divided into the total number of deaths.

I realize some may find number crunching a little boring or tedious but these are **critically important numbers** we should all be aware of – so to further illustrate – at the end of February the worldwide death rate based on total number of confirmed cases was only about **3.3%** but if

one dealt only with the cases that were closed or completed through either full recovery or had unfortunately ended in death the true number jumped to a fatality rate of **6.8%** – which fatality ratio continued to rise with every daily report until it hit **10.1%** on March 19, then **11%** on March 20 and jumped to **12%** on March 21 – and two days later by March 24 it had jumped to **14%** – the next day **15%** and the following day up to **16%** and then on March 27 it hit **18%** and the very next day on March 28 it jumped again to **19%** and on March 30 hit **19.65%** and the number of total cases was nudging the new threshold of one million.

Now just a few days later as I finally complete this article on April 3 the cumulative number of confirmed cases worldwide just hit **1,202,236** with 64,753 deaths and 246,457 recovered – which equates to 64,753 deaths divided by 1,202,236 total cases for an **overall death**

ratio of almost 5.4% of all confirmed cases including all the tens of thousands of cases freshly diagnosed this very day — but when one isolates those numbers to the cases which have actually completed or closed — which equals 311,210 total closed cases divided into the reported 64,753 deaths it gives a **true fatality rate of 20.8%** — and the numbers still continue to climb daily — not exactly great news for those who would like to see this pandemic over in the next week or two!

Hence, in comparison to the **Common Flu** which has a usual fatality rate of about 0.1% we now appear to be dealing with a virus that based on the numbers officially presented could be a whopping **208 times more deadly than the yearly flu** — and the true fatality ratio keeps rising — and that is the stark reality of **“True Math”** on the coronavirus!

Furthermore, the Wuhan coronavirus is already in **virtually all 196 countries** — with only a few remote or isolated republics and islands still reporting to be virus-free — meanwhile the USA has rapidly mushroomed from its first confirmed case on January 20 which was a man who had just returned from visiting family members in Wuhan — to the most infected of all nations with 311,635 confirmed cases, 8,454 deaths and 14,825 recovered — which gives the **USA** an overall death rate of over 2.7% but a far greater **true fatality rate** based upon those cases which have actually come to a close that equates to **36.3%** — which is serious cause for concern!

Meanwhile Italy seems to have slightly slowed down with its rampant increase of the virus which now has 124,632 cases, 15,362 deaths and 20,996 cases said to have recovered — which using the true equation of cumulative cases who have recovered added to those which have perished divided into the total number of deaths gives **Italy a whopping true fatality rate of 42.25%** — a devastating ratio — but still slightly down from its earlier death ratio that was at **44.2% a week ago** — somewhat similar to the fatality rates of some of the most deadly plagues of the past.

And Spain which has to date recorded 126,128 cases, 11,947 deaths and 34,219 recovered racks up a **true fatality rate of just a hair under 29.9%** — which like Italy is also slightly down from where it was a week ago when it was at **31%** — but all these fatality rates are truly shocking numbers that indicate the true fatality rate is many many times higher than what most

mainstream media outlets are reporting — perhaps to help temporarily reduce the panic level of the populace.

Meanwhile in **Canada** — the national news is still reporting a 1% death rate — but we already have 14,018 cases, 233 deaths and 2,603 recovered — which gives a total case fatality rate of almost 1.66% but a **true fatality rate of 8.2%** — providing one can trust the numbers posted — as I just heard word that there are actually 172 confirmed cases in my little home town of Kelowna but many of them have not yet been officially reported and doctors and nurses are supposedly under a **“Gag Order”** to keep the public from panicking further!

So who knows the real numbers — are they hyper-inflated or are they under-reported — in other words — **are the numbers being reported anywhere near accurate.**

And then we have **CHINA** where the whole fiasco began and where their Communist leaders intentionally and miserably failed for many weeks to tell the rest of the world what was really going on — and simply put — **NOBODY BELIEVES any of the numbers coming out of China** including even most of the mainstream media outlets — which absolute confusion and deception has definitely helped to bolster the number of **“Conspiracy Theories”** flooding the internet and social media these days — but I’ll leave the subject of conspiracy and potential or likely hidden agendas to perhaps my next article — as right now the imperative need is to see what the true Church — the Body of Christ in the earth — should be doing.

But for the record, I along with almost every person I know, simply do not trust the media — nor do we trust government — nor do we trust anyone or anything except Jesus Christ and His Written Word — for He is the Only One who will not lie — as the bible states, **“GOD IS NOT A MAN THAT HE SHOULD LIE, neither the son of man, that he should repent (or change his mind)”** Numbers 23:19 — and He is also the Only One we should trust to protect and keep us!

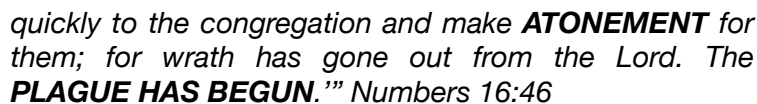

But there is still one more question regarding mathematics and numbers that no one in the medical world and certainly no mainstream media seems to be talking about — at least not publicly — and that is **where and what are the numbers of people dying right now from the regular Common Flu.**

So how does that little bit of math fit into the current health dilemma — and how many of those said to be dying from COVID-19 are actually perishing from the common flu — or dying from underlying symptoms from which they would have succumbed anyway!

But there is no doubt we have some kind of worldwide pandemic on our hands — real or fabricated — and the first thing we need to do is to stay safe and share the faith of the Gospel of our Lord.

Now let's get back to scripture and see what the Bible has to say about plagues and how the Church needs to respond.

Listen to this scripture:
*“So Moses said to Aaron, ‘Take a censer and put **FIRE** in it from the **altar**, put **incense** on it, and take it*

SPIRITUAL INCENSE
on it symbolic of our
prayers and sincere
heart worship of the true
and Living God — as
David said, “*Let my
prayer be set forth
before you as incense;
and the lifting up of my
hands as the evening
sacrifice*” Psalm 141:2 —
and then we are to make
ATONEMENT — or
more expressly to
pronounce or preach the
all encompassing

Someone simply but rightly broke this word down to mean **“AT—ONE—MENT”** — which more explicitly points to the sacrifice that once and for all reconciled fallen mankind and brought us back into *“one”* with the Living God — to be at peace with, to be reconciled with, to be put in right standing with and to be made complete in God — or to put the word into proper NT theology — *“the reconciliation of God and humankind through Jesus Christ”* — which is the ultimate message we are to preach to all the world — as scripture clearly states, *“God, who reconciled us to Himself through Christ and gave us the **ministry of reconciliation!**”*
2 Corinthians 5:18

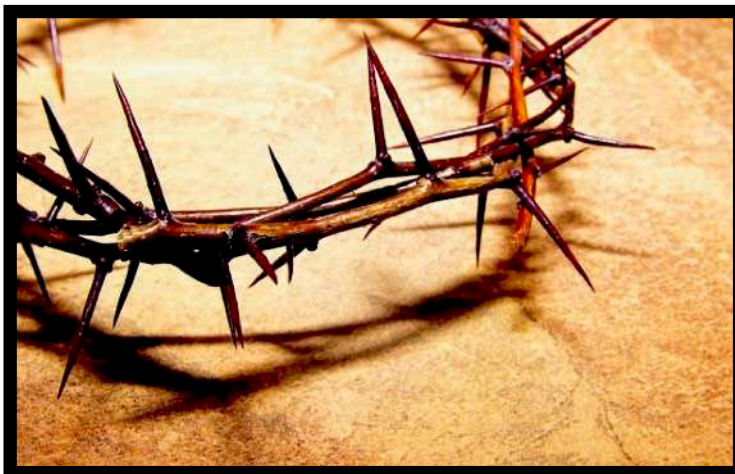

*"Then Aaron took it as Moses commanded, and ran into the midst of the assembly; and already **the plague had begun among the people**. So he put in the incense and made atonement for the people. And he **STOOD BETWEEN THE DEAD AND THE LIVING**; so **THE PLAGUE WAS STOPPED!**" Numbers 16:47-48*

Imagine the scene as despite the dangers of this sudden death-wielding plague that had exploded in their midst, the man of God, Aaron, obeyed the Word of the Lord and immediately loaded fire from the altar in the censer

and literally ran into the midst of the congregation to make atonement — for even though the plague had just begun, scripture tells us it had already struck 14,700 dead — but when the man of God acted upon the instruction of God the Bible says — **THE PLAGUE WAS STOPPED!**

Now take special note of the words in this text — he **“STOOD BETWEEN THE DEAD AND THE LIVING”** — and that is exactly what the true Church, the Body of sold-out believers, is to do today — and what an awesome privilege it is!

Imagine — every member of the Body of Christ not only has the divine commission of the Lord but also the ability to do just as surely as Aaron did — to stand between the dead and the living — between the deadly plague and the cure in Christ — between fallen mankind's separation and his full redemption in Christ — between the very forces of death and life — and between all sickness and divine healing to all — how do we do this — through the simple but powerful proclamation of the True and all encompassing Gospel paid in full and available to all mankind!

So Church — my fellow believers in Jesus Christ — let us cast all fear to the side and rise up and be about the Master's Business — and let us never forget that God's **“ATONEMENT”** accomplished once and for all by and through His holy blood not only provides **forgiveness for all our sins** — but also **deliverance from all fears** and this marvellous atonement includes our **physical healing of any and every disease** as well as **divine protection** even during times of the deadliest of Plagues — so let's preach the Word in the power and fire of the Holy Spirit at all times — and watch as God turns things around through his love and mercy!

And perhaps never in our lifetimes has the need been greater — as multiplied millions are in dire need to hear about the One and Only Saviour and Healer who is indeed *“the Way, the Truth and the Life”* John 14:6 — and **you too can stand between the dead and the living!**

OPPORTUNITY FOR A GREAT REVIVAL

Let's face it — people are scared — multitudes are freaking out — all their manmade idols and earthly icons have dismally failed and almost overnight

everything they have futilely put their trust in has come crashing down in a matter of just days and weeks — and **they are looking for answers** — not stale religious answers but real answers — including is there really a God — is He able and willing to help us — and how do we get into right relationship with Him!

I have had many conversations the last few weeks with people who would never before talk about God or the Bible — but all of a sudden they are the ones who lead the conversation into things of the Spirit with questions such as — **“Is this virus the start of the Great Apocalypse”** — or is this plague the result of **one of the “Four Horsemen of Revelation”** — remember those formidable horsemen John saw in his vision — first the **WHITE HORSE** — symbolizing false peace and the antichrist going out with a sword to conquer and to bring the entire world under one world demonic government — followed by the **RED HORSE** symbolizing war such as the world has never seen before — and then the **PALE HORSE** which symbolizes famine and dearth as food supplies dwindle and plagues, wars and anarchy break out — and finally the **BLACK HORSE** which brings death and destruction!

And regardless of where anyone may think we are in the timetable of God's Word — whether this be the *“beginning of sorrows”* or simply another *“dress rehearsal”* or *“harbinger”* of far worse things to come — there is little doubt the entire world including the vast multitude of unsaved are becoming far more conscious of the gravity of the situation and the fragility of life as we have been living it — and they are becoming increasingly hungry for real answers — and as true believers we have the answer — for we know that Christ and **Christ alone is the ONLY ANSWER!**

Hence, if the Church could truly grab this opportunity — shake off its lethargy and complacency — leave behind its modern day *“religious fluff”* — and once again boldly begin to herald the True Message of the Cross, the Blood, the Resurrection and the unchanging ever-present saving healing power of the Holy Ghost — in essence, be true Light to the world as we **‘hold forth the Word of Life’** *Philippians 2:15-16* — then God can and God surely will turn this dastardly situation around!

Now consider this scripture, **“All things work together for good to those who love God and are the called according to His purpose”** *Romans 8:28* — not that God is the source or cause of this filthy little virus or any other modern day plague as He has no sickness or

disease to give anyone — but rather He, our Eternal Loving Father, can bring good out of any and every bad situation no matter how terrifying it may seem to some at the time — even something as nasty as this current viral plague can be turned around for good — and in case you may be wondering — **“ALL THINGS”** simply means all things — which means it must also include this rotten virus!

So let us seize the opportunity and truly be **SALT** — and let us be **LIGHT** — and let's ensure our light shines brighter than ever because when people are hurting or scared as so many are today, **their hearts are actually being divinely prepared to receive the Love and Mercy of God and be saved!**

But the first thing the majority of even Christ's true believers need to do is to overcome the *“spirit of fear”* and know they are in covenant relationship with God and are divinely protected by Him — by virtue of the fact that **“we are in Christ”** and **“Christ is in us”** — which reality literally has the power to make us **“Inoculated by Jesus!”**

JOHN G LAKE & THE BLACK PLAGUE

If there was ever a man who walked in this truth and the divine revelation of **“God In Man”** — it was John G. Lake — a Canadian-born missionary to South Africa who during the period of 1908-1913 preached and established the *“Apostolic Faith Mission of South Africa”* and was responsible for raising up over 1,000,000 converts, 625 churches and 1,250 preachers in just five short years of Holy Ghost miracle ministry — which legacy was indisputable evidence of the power of **true Pentecostal ministry** at the turn of the last century as revival swept like heaven-sent fire throughout South Africa.

The key to Lake's dynamic ministry is one of the most needed revelations of the Church today — that God literally dwells within us — summed up in this one poignant statement — **“We are awakening to that marvellous truth that Christ is not in the heavens only, nor the atmosphere only, but CHRIST IS IN YOU!”**

Nowhere was this dynamic truth more greatly

manifested in Lake's ministry than when the **BLACK PLAGUE** struck South Africa in 1908 — as seen in this marvellous story I first read about in Lake's intriguing autobiography more than 40 years ago which is still one of the most needed revelations for all Christians today!

Death and disease were stalking the south end of the African continent and Lake and one of his fellow ministers were busy tending to the dead and dying as well as entering into many homes to bring out those who died and conducting burials — sometimes three or four at a time in mass graves — to help contain the spread of the disease.

During this period state-sponsored ships with medical supplies and corps of doctors were sent to intervene — and being fully aware of how extremely contagious the killer plague was if it touched another living person and that death was almost certain, the doctors expressed

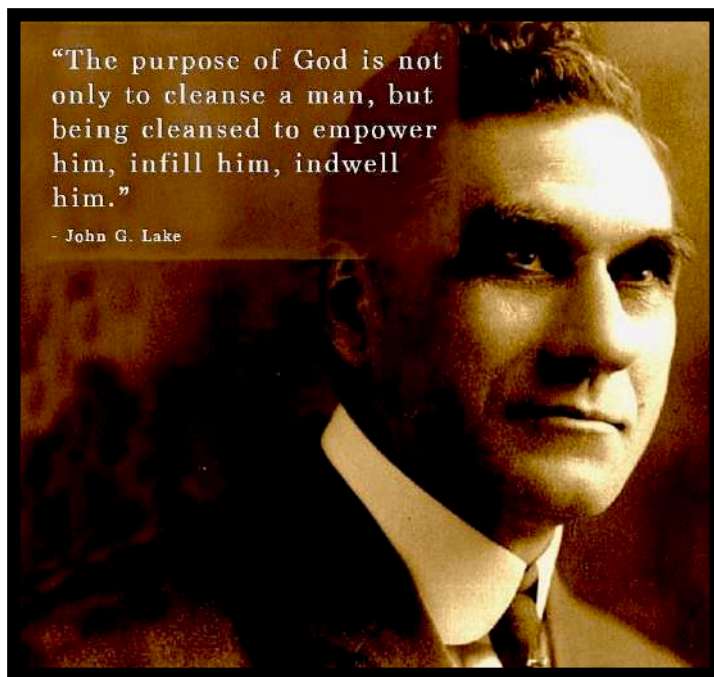

grave concern for Lake's wellbeing and wondered how he could be ministering to both the living and the dead without being struck down.

Lake told the doctors he was inoculated with Romans 8:2 — **“The Law of the SPIRIT OF LIFE IN CHRIST JESUS has made me free from the Law of Sin and Death!”**

Understandably, the medical professionals had no comprehension of what he was talking about so Lake said, *“Doctor, I think that you would like to experiment with me. If you will go over to one of these dead people and take the foam that comes out of their lungs after death, then put it under the microscope, you will see masses of living germs. You will find they are alive until a reasonable time after a man is dead.”*

The doctors put the foam and spittle from the mouth of one of the cadaver's under the microscope and viewed the mass of living squiggly germs — and then Lake said, *“Now fill my hand with the same foam and I will keep it under the microscope, and instead of these germs remaining alive, **they will die instantly!**”*

The doctors did as Lake suggested and found it was true as all the wriggling agents of death instantly died when they came in contact with the Spirit of the Living God emanating from the man of faith — and the astonished medical professionals watching the germs

die before their very eyes questioned, ***“What is that”*** — and Lake replied, ***“That is ‘the Law of the Spirit of Life in Christ Jesus.’ When a man’s spirit and a man’s body are filled with the blessed presence of God, it oozes out of the pores of your flesh and kills the germs.”***

Marvellous truth of God — but Lake wasted no time in explaining why it is so imperative we learn to truly overcome the fears of this world and develop genuine miracle producing faith in God — not just some form of mental acquiescence to religious rhetoric — as in his very next pen stroke he states, ***“Suppose on the other hand, my soul had been under the Law of Death, and I were in Fear and Darkness? The very opposite would have been the result. The result would have been that my body would have absorbed the germs, these would have generated disease and I would have died.”***

Oh CHURCH — how we need to come into that same degree of vibrant contact with the Spirit of God as John G. Lake did and to continuously live in the realm of this dynamic Law of Life in Christ Jesus until it takes full possession of us — body, soul and spirit — and to truly know that the secret of Heaven’s Power is not in our doing for Christ but rather in our ***“being in Christ!”***

As Lake said, ***“The purpose of God is not only to cleanse a man, but being cleansed to empower him, infill him, indwell him!”***

INOCULATED BY JESUS

Now on to the primary purpose of this little article — a topic I have been preaching on in every campaign for the last almost two months — ever since the first minor rumblings of this viral infection started coming out of China in mid-January — and I have been emphasizing this critical point throughout every location preached since starting my latest series of campaigns on Vancouver Island and throughout parts of BC, Alberta and Saskatchewan — for having studied plagues and viral diseases many years ago along with the bible I have known that a fresh modern day plague was

coming — even as the WHO and CDC have been forecasting for years — ***“it’s not a matter of ‘IF’ — it’s a matter of ‘WHEN’”*** — and now that it appears to be here we need to ensure we are truly inoculated to all killer diseases including this latest deadly pathogen!

Ironically, one person who was in some of my recent meetings later posted on FaceBook that he was not concerned about this potentially deadly virus — for he had been ***“inoculated by Len Lindstrom”*** — of course I knew what he really meant but I responded that if such be the case he could be in real danger for neither I nor

any other man or preacher or wanna-be prophet has the power to inoculate anyone — ***it is only our Lord Jesus Christ who has the power to inoculate us through His Word, His Blood and the mighty indwelling of His Spirit*** — just as surely as He did over 100 years ago for John G. Lake!

So here’s ja divine dozen of some of the best inoculation shots you could ever get — as I preached and shared in all of my latest run of meetings here in Canada — and I pray these powerful inoculation shots will go deep into every heart and soul reading this as we remind ourselves of

who we really are in Christ and who His Spirit is in us!

INJECTION #1 — ***“But if the Spirit of Him who raised Jesus from the dead dwells in you, He who raised Christ from the dead will also give LIFE TO YOUR MORTAL BODIES THROUGH HIS SPIRIT WHO DWELLS IN YOU.”*** Romans 8:11

INJECTION #2 — Sickness and disease may be spreading around the world but — ***“GREATER IS HE WHO IS IN US*** than he who is in the world.” 1 John 4:4

INJECTION #3 — Every sickness and plague is part of the curse — but ***“CHRIST HAS REDEEMED US FROM THE CURSE, having become a curse for us ... that the blessing of Abraham might come upon the Gentiles in Christ Jesus!”*** Galatians 3:13-14

INJECTION #4 — Because we abide under the shadow of the Almighty and His Spirit resides within us — ***“No EVIL shall befall you, Nor shall any PLAGUE come near your dwelling”*** Psalm 91:10

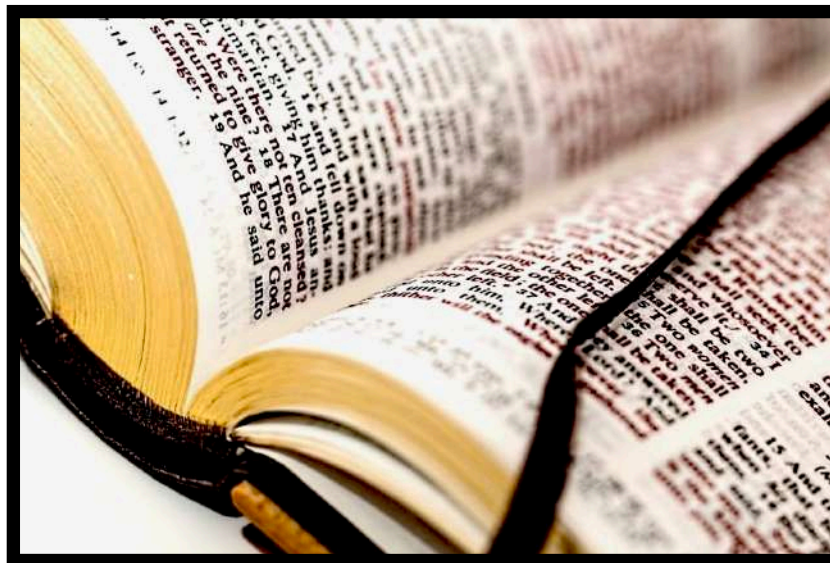

INJECTION #5 — “**He HAS DELIVERED US** from the power of darkness and conveyed (translated) us into the kingdom of the Son of His Love.” Colossians 1:13

INJECTION #6 — Healing is “**THE CHILDREN’S BREAD**” — and even “a little crumb” has more than enough power to heal the afflicted whether they are covenant children or even still part of the unsaved!

INJECTION #7 — “Bless the Lord, O my soul, And forget not all His benefits: Who forgives all your iniquities, **WHO HEALS ALL YOUR DISEASES, WHO REDEEMS YOUR LIFE FROM DESTRUCTION, Who crowns you with lovingkindness and tender mercies.**” Psalm 103:2-4

INJECTION #8 — It is “the thief who comes to steal, and to kill, and to destroy” — but it is the LIVING CHRIST — OUR LOVING SAVIOUR — who has “come that **WE MAY HAVE LIFE AND THAT MORE ABUNDANTLY!**” John 10:10

INJECTION #9 — We give attention to and believe the Word of God — we do not let His Word depart from before our eyes — and we keep His Words in the midst of our hearts — “For they are **LIFE TO THOSE WHO FIND THEM AND HEALTH TO ALL THEIR FLESH!**” Proverbs 4:20-22

INJECTION #10 — And once again — the marvellous reality of spiritual law that has the power to set us free from every sin, sickness and plague for — “The **LAW of the SPIRIT OF LIFE IN CHRIST JESUS has made me FREE** from the Law of Sin and Death!” Romans 8:2

INJECTION #11 — And the precious blood of Christ as — “they **OVERCAME** him **BY THE BLOOD OF THE LAMB** and by the word of their testimony, and they did not love their lives to the death.” Revelations 12:11

INJECTION #12 — And now for a truly phenomenal verse which the Lord has been driving deep into my spirit for many months which if we could truly grasp its magnitude and import would set us ever-free from any and all impending fear or sickness — “For in Him (in CHRIST) dwells all the fullness of the Godhead bodily; and **YOU ARE COMPLETE IN HIM**” Colossians 2:9-10

Think of it — we are already made “**COMPLETE**” —

which means “*crammed to the full*” with Jesus — “*filled to overbrimming*” with His divine presence to the point there is “*no room left over*” — and as “*Temples of the Holy Ghost*” who so richly dwells within us — there is simply no room left for fear, sickness, disease or plague!

Plus this **SPECIAL BONUS INJECTION** for good measure — “*And the blood shall be to you for a token upon the houses where you are: and **WHEN I SEE THE BLOOD, I WILL PASS OVER YOU, and the PLAGUE shall not be upon you to destroy you.***” Exodus 12:13

What a marvellous covenant truth — and if God could keep Israel, His “*natural*” Covenant Seed, safe from the Plague as He so miraculously did when the *Plague of Death* passed through Egypt — He can just as surely do the same and even much more for His “*spiritual*” Covenant Seed today — and whether in the Land of Goshen or in our respective lands and homes today — **the only prerequisite to divine health, safety and protection is to have the precious**

BLOOD OF THE LAMB — the efficacious atoning blood of Christ which He so freely shed on our behalf — **over the lintels and doorposts of our hearts and lives and families** — and to place our full and unwavering trust solely and explicitly in the inerrant Word of God which never ever fails — for when we truly believe and trust in the Blood and His Word — **NO PLAGUE, VIRUS OR EVIL CAN TOUCH US!**

These are just a few of God's mighty promises — His powerful “*Inoculation Shots*” — each of which standing alone has more than enough power to inoculate and keep us safe from any and every disease!

And regardless of how many negative or fearful things we may hear through mainstream media or flogged on the masses through any other worldly medium — we should never forget this infallible promise of our Living Loving Saviour:

“Be strong and of good courage, **DO NOT FEAR NOR BE AFRAID** of them; for the Lord your God, He is the One who goes with you. **HE WILL NEVER LEAVE YOU NOR FORSAKE YOU.**” Deuteronomy 31:6

HALLELUJAH TO THE LAMB — we are safe in Jesus from the Plague — and this supposed coronavirus!

MAD AT THE DEVIL but **STILL VICTORIOUS** **IN CHRIST**

MY DEAR FRIEND & SOUL WINNING PARTNER,

Needless to say, I am **"MAD AT THE DEVIL"** and his cronies be they fallen spiritual entities or human deviants with hidden agendas — either way, the unnecessary fallout and setbacks foisted on the world by this latest so-called pandemic are real — as right now I was supposed to be in the Philippines conducting another huge Gospel campaign — then on to Indonesia next week for four more big outdoor campaigns and then over to Kenya for another mass campaign — all of which had to be temporarily postponed — as have been all our plans for numerous tent campaigns here in Canada this summer — so regardless of the origin or agenda behind this viral attack the enemy has definitely managed to use it to temporarily stop hundreds of thousands from being saved in our mass meetings alone.

But I am sure you know I am not one to sit still and play tiddlywinks while the devil runs roughshod — so I intend to quickly start up our own Youtube channel to preach and pray with all who are interested — but as you can imagine there is a great need to generate funds — and with no meetings to help meet the needs I pray that those who are able will also be willing to help me launch this new platform to bring the Gospel and fresh revelations of the times we live in to the hungry and those searching for real biblical answers to hard questions.

If you would like to help — your prayers and financial assistance will be greatly appreciated — and you may donate by:

- 1) Writing a **Check** and sending it to the ministry address below
- 2) **E-Transfer** and sending a text to me with details at 1-250-300-8082
- 3) Or give by **Credit Card** by clicking this secure link: www.lenlindstromglobal.com/give

Thank you so vey much and may God keep you and all your loved ones safe and may He by His divine grace and mercy stop this wicked plague and all the paranoia associated with it!

Now BE BLESSED & KNOW YOU ARE LOVED!

Len Lindstrom
